

Oregon Watershed Enhancement Board's Investments in Sherman County

OWEB's Mission: To help protect and restore healthy watersheds and natural habitats that support thriving communities and strong economies.

OWEB Grant Awards and Results

Since 1999, OWEB has awarded more than \$3 million in grants in Sherman County.

Accomplishments

Restoration and improvements accomplished in Sherman County:

15 instream or riparian habitat miles treated (5,417 statewide)

55,526 upland habitat acres improved (1,198,227 statewide)

Grant Awards by Project Type

All Fund Sources, 1999-2018: \$3,606,056

Numbers below are in millions of dollars

Local Economies and Communities Benefit

OWEB funds are used to pay those who design and implement projects, hire field crews, and buy goods and services they need to get the job done.

= 15 - 24 local jobs

According to a University of Oregon study, every \$1 million of OWEB investments creates 15-24 jobs in local communities across Oregon.

90¢ of each \$1 supports local economies

On average, more than 90¢ of every OWEB grant dollar supports local businesses, services, and suppliers within Oregon.

Numbers generated for this fact sheet are based on the best data available as of 12/31/2018 from the Oregon Watershed Restoration Inventory and OWEB's Grant Management System. "Local Capacity" includes Council Capacity and Soil & Water Conservation District grants.

About OWEB

The Oregon Watershed Enhancement Board cares about and invests in the long-term health of Oregon's watersheds, both on the land and in the water that flows through it. Together with local partners across the state of Oregon, we invest funds from Lottery, federal Pacific Coastal Salmon Recovery Fund, Salmon License Plates, and other sources in local communities. These funds help protect and restore healthy watersheds and natural habitats that support thriving communities and strong economies. Through all of our work, we are dedicated to the belief that:

- Healthy watersheds sustain healthy communities.
- Every Oregonian plays a role in the health of our watersheds.
- It takes broad partnership to support resilient watersheds.
- Improving our watersheds requires taking the long view.
